£0.00
£0.00 inc VAT

Product Description:

Performance Camshafts for DB2 DB2/4 and DB2/4 MKIII.

Suitable for fast road and rally use. Although these cams offer an excellent increase in performance the idle and low down torque is also acceptable for road applications.

Full race Spec cams also available.

These have had dyno use only.

We can also supply any other related items, or Engine services you may require.

Please contact us for pricing and further information.

Sold as used. No warranty given or implied.
