

High Performance Camshafts DB4/5/6 & S6

PROD10966

£0.00
£0.00 inc VAT

Product Description:

High performance / race Cams to suit Aston martin DB4/DB5 & DBS6.

These Cams have been designed to give the ultimate performance.

Due to the duration and lift we class these cams as mainly suitable for track use, although when used with Aston workshops EFI system an acceptable idle and low down traction can be achieved.

Further engine modifications will be required.

Used for display purposes only. Please contact us to discuss further details.

We can also supply any other related parts or Engine services you may require.

Please contact us for pricing.

Sold as used. No warranty given or implied.
