

## Ignition Lead Set

AWP595

**£76.00**

**£91.20 inc VAT**

### Product Description:

Ignition Lead Set

Features Magnecor's stainless steel conductor wound on a ferromagnetic base, providing radio frequency interference suppression and a capacitive reserve to help ignition coil regeneration at high engine revolutions, surrounded by an EPDM insulator with fibreglass reinforcement, covered by high temperature resistant silicone rubber.

This set is for the Aston Martin 6 Cyl.inder engine in the DB2, DB4 (not GT), DB5, DB6, DBS (screw in type distributor cap).
