

Integrated in Dash Heating and Air Conditioning Kit

AWK007DB-

£4250.00
£5100.00 inc VAT

Product Description:

Integrated in Dash Heating and Air Conditioning Kit suitable for Aston Martin DB4, DB5, DB6

Our upgrade package for the DB4, DB5 and DB6 combines the evaporator and heater matrix within a modified heater plenum chamber. Modern, much higher airflow, multi-speed blower motors are used to duct and discharge the air, be it cooled or heated. The outlet vents are usually discreetly fitted to the under dashboard trim panel or centre console.

Depending on the intended car destination, we are delighted to be able to specify the air con system of various sizes and capabilities that can be individually defined, specified and costed. Please contact us if you require any further information about this product before buying. Tel. +44 (0) 1207 233 525 or complete a request form here: [Contact Us](#) PLEASE NOTE: THIS KIT MUST BE FITTED BY A SKILLED SPECIALIST. AND THE VEHICLE MUST BE NEGATIVE EARTH , WE ALSO RECOMEND UPGRADING YOUR RADIATOR TO OUR ALUMINIUM VERSION WITH TEMPERTURE SENDER BOSS Please contact us if you require any further information about this product:
