

Monte Carlo Handling Kit

AWK1000MC

£912.90

£1095.48 inc VAT

Product Description:

Monte Carlo Handling Kit

Recommended for all those who like to drive their Aston Martins - and not just polish them.

Sick of driving your soggy Aston around? Tired of ruining your expensive exhaust?

Designed for the practical Aston driver who wants to achieve better driving characteristics and performance from their Aston Martin, the Aston Workshop Monte Carlo Suspension Kit will increase stability at high speeds, and cut down body roll dramatically.

The MONTE CARLO HANDLING KIT consists of: A new, much heavier anti-roll bar Special rigid mountings, caps and bushes Redesigned and tuned road springs Aston Workshop brought out this kit after the highly commendable victory of Chris Thompson and his DB4 in the 1992 Monte Carlo Challenge. We supplied the majority of parts for this car, helping it to achieve outright victory.
