Product Description:

Ready Built 1:43 Scale Models

We are pleased to be able to offer this stunning range of collectable, classic Aston Martin models.

These models are hand built by a dedicated team of craftsmen and women, many of whom have a lifelong passion for model making, cars and motorsport. They are made to the scale of 1:43 (internationally recognised by collectors) and are 10 to 12.5cms long.

Models are made from high quality whitemetal and, where appropriate, resin. They feature rubber tyres as well as plated and finely detailed photo-etched parts. All models come complete with detailed decals.

All models are available either readymade or in kit form. Each kit contains between 40 to 70 parts for you to paint and assemble.

We are able to also offer commissioned pieces at a small additional charge based on your Aston Martin, including your registration number on the vehicle and as close a colour match as possible. Please contact us for more details of this service: 01207 233 525 – parts@aston.co.uk

The range is increasing all the time, so if you don't see the model you're after, why not register for our newsletter and keep up to date with new models as they are introduced.
