

Aston Martin DB5 Vantage Engine

DB5/V

£0.00
£0.00 inc VAT

Product Description:

Original DB5 Vantage specification Engine. Sold as a complete unit, as pictured, less Carburettors. The Engine has been Dyno tested and performed well with good oil pressure. Having extensively searched the original build sheets trying to locate the Engine number, we believe this was, more than likely a factory spare and was not allocated to a vehicle. Very rare indeed. Further details are available on request. The Engine is being sold with no warranty implied or given.
