

## DB4 Cylinder Block Assembly.

DB4/BLK

**£0.00**  
**£0.00 inc VAT**

### Product Description:

A rare opportunity to purchase a genuine, original DB4 Cylinder Block. The Block has been fully machined with the liner locations taken out to accept standard 4.0L /4.2L Cylinder liners. Liner heights machined and set to manufactures tolerances. Main bearing tunnel freshly Line Bored. New rear crank seal fitted and line bored to suit standard scroll size. Supplied with matching front timing cover that has been machined with the block. All threaded holes tapped and checked. Sump face machined true. This block is ready for a final clean and liners fitted prior to assembly. All work has been carried out in-house to the highest possible standard. Please contact us for pricing or to discuss your engine machining or building requirements. Sold as used, no warranty implied or given.
